

Call for papers

Conference EUROOPEN 2021 (<http://www.europen.cz>)

31st May - 2nd June 2021, Radešín (<https://www.balonovychotel.cz/>)

(If the epidemiological situation would prevent physical gathering, event will be moved to some later date.)

The late Spring gathering of users of open systems EUROOPEN 2021 will be focused on practical aspects of computer security and applied cryptography. This, rather informal, gathering of experts is organized in order to foster the exchange of information and ideas in the past, ongoing, and also future projects.

The program committee will accept submissions targeting security of mobile devices, malware analysis, network security, applied cryptography, security of smart cards and interesting development approaches in these but also in other relevant areas. The advantage is to focus on open-source systems and practical experience with implementation.

Proposals for presentation should be submitted as an extended abstract of 1-2 pages formatted for anonymous evaluation and sent to svenda@fi.muni.cz no later than **3rd March 2021**. The expected size of final submission is 2-10 pages but is not strictly limited. The submissions will be later typeset in LaTeX, but it is not required to adhere to any template in advance.

The submission in English, Czech, or Slovak language are accepted with notification of acceptance / rejection before **22nd March 2021**. Authors of accepted papers will be asked for a short annotation and CV used in the promotional brochure.

Invited lectures:

Jiří Kůr – Bezpečnost GSM sítí (téměř) všech generací

Tomáš Rosa – Kryptolog a sousedův P.E.S.

Petr Hanáček – *téma bude upřesněno*

Martin Čarnogurský – Supply chain attacks on package managers

Important Dates:

- Submission deadline (extended abstract): **3rd March 2021**
- Acceptance/rejection notification: **22nd March 2021**
- Submission of annotation and CV for promotional brochure: **1st April 2021**
- Camera-ready format: **22nd April 2021**
- Conference date: **31st May - 2nd June 2021**

Program Committee:

Petr Švenda (předseda, Masarykova univerzita)

Milan Brož (Red Hat)

Jan Krhovják (Invasys)

Marek Kumpošt (Oracle NetSuite)

Václav Lorenc (Konica-Minolta)

Matuš Jókay (FEI STU)

Marek Sýs (Masarykova univerzita)

Jan Hajný (Vysoké učení technické v Brně)

Vášek Matyáš (Masarykova univerzita)

Víťa Bukač (Honeywell)

Zdeněk Říha (Masarykova univerzita)
